LOCATION: 23^E KM - PLAINE-DES-CAFRES

Company: **LE CABARET PAT'JAUNE** 

The people who live in the highlands of Reunion Island are called «Petits Blancs des Hauts» (Little White Highlanders) or Youl, Yab, Liton and even Pat'jaune (yellow feet). This Creole expression comes from the colour of the farmers' feet after working in the saffron (turmeric) fields.

As proud representatives of this region of the island, four musicians chose to name their group Pat'Jaune.

Originally consisting of the three Gonthier brothers, Michel, François and Bernard (from a family of 12 children), Pat'Jaune was officially formed in 1993. Claudine Tarby has been a part of the group since 2000, adding a feminine touch on percussion and vocals.

In 2003 Pat'Jaune was awarded the title of «Best Musical Group of the year» and «Best Reunion Album of 2002» (with the Ti Catoune album) by a jury made up of performing arts professionals and the local press.

Schedule:

- 7:30pm: Meet at Cabarte Pat'Jaune
- You will be welcomed by the group in person and escorted to the restaurant.
- An aperitif (fruit juice or home-made punch) will be served with different Creole specialities (samosas, «bonbons piments»).
- After these appetisers, you will move to the concert hall. Pat Jaune will perform their amusing and poetic show. They will take you back in time, to the Reunion of days gone by.
- Back to the restaurant to try traditional caris cooked on a wood fire served with rice and rougails (chicken cari, rougail z'andouillettes, etc.). Then the journey continues...
- Back to the concert hall.
- The atmosphere cranks up: but not without a sense of humour. Pat'Jaune tell anecdotes about daily life in the highlands, to the sound of the banjo, the guitar, the mandolin, the violin and the double bass.
- You can take gourmet breaks in the restaurant and go back to the concert hall as you please for the rest of the evening.
- Around 11.30pm the journey ends.

Company: : LE DOMAINE DE BEAUBASSIN

The still largely unknown Domaine de Beaubassin is nestled in the highlands of Saint-Denis and has been classified on the supplementary list of historical monuments since June 2018. It is worth the detour, to see with your own eyes the magnificent garden, authentic Créole house and outbuildings.

As we enter the gates of the Domaine de Beaubassin, we have the impression that time stands still. It is as if we have been transported to another period in time.

This estate was built between 1863 and 1865, on the road to Saint-François. The former Mayor of Saint-Denis, Mr. Alfred Mazérieux, his wife, Mrs Euphrasie Ozoux and their adopted son, also named Alfred, once lived here.

Today, Monique and Cyril Ozoux, Maurice Ozoux's grandson, Euphrasie's cousin, live here and will be delighted to welcome you to their magnificent estate.

Schedule for the tour:

- 10am: Guests are welcomed by Monique Ozoux, the owner.
- First you'll have the opportunity to get to know Monique and the other participants.
- The tour then begins and you will firstly learn all about the architecture of this Créole house. Monique will take you on a tour of this magnificent Créole house, that has been restored in places: the two beautiful towers still have the charm of bygone days, some of the wooden flooring, the doors and some pieces of furniture date back to the time when the Mazérieux family resided here. In a corner of the dining room, we can still see the Gramophone which was owned by Alfred Mazérieux junior, who, apparently enjoyed entertaining.
- Once the tour of the house is finished, Monique takes visitors into her magnificent Créole garden. Before this beautiful Créole house was built between 1863 and 1865, the land was known as Mont Saint-François Gardens, a colonial garden Botanist Nicolas Bréon, the very same who was hired to work on Le Jardin de l'Etat (the State gardens), used this land as a trial garden. He grew plants and flowers here before planting them in the Jardin de l'Etat. It is thanks to him that today we can see some very rare varieties of flowers alongside the landscaped alleyways of Beaubassin, such as the Bourbon rose or the Edward's rose. These plants were left when the estate was bought by Mr. Mazérieux.
- The tour ends under the huge, authentic terrace, with a lemon-flavoured drink and some delicious home-made cakes. What a great way to end this journey back in time and to come back to the present day.

It's possible to explore the Cirque de Mafate without being an experienced walker! Clovis, known as the scout of the West, will take you on a getaway for a few hours to the heart of the king of the calderas. The perfect opportunity to find out more about this protected natural environment, the history and the locals.

Schedule for the tour:

- Clovis or Mathieu will be waiting there for you, both qualified mountain guides from the Tourist Office for the West.
- 7am: 4x4 ride to Deux-Bras.
- 7:45am: the hike begins.
- 3hrs of walking with river crossings, incredible views, fruit trees, waterfalls down the cliffs, native plant species, natural swimming pools, etc. You are guaranteed a change of scenery.
- Throughout the hike, the guide will tell you all about the history of the Cirque, the period of history about the "marrons" (runaway slaves), the first inhabitants of Mafate who found refuge at the heart of the sheer cliffs. The guide will also tell participants about the health benefits of the many plants seen along the way, such as the Lantana Camara which is recommended for migraines, or the bark of the Benjoin which is well-known for its medicinal qualities.
- After walking for around 3 hours, hikers will arrive at the Grand-Place îlet, the biggest village of lower Mafate, covering 3 distinct plateaux: Grand-Place "Cayenne", Grand-Place "Ecole" and Grand Place "les Hauts". These îlets (small villages) have a clear heritage value as they are found on the access road to the former spa village of Mafate-Les-Hauts which prospered in the middle of the 19th century and was the beginning of the development of the Cirque as we see it today (the village has since disappeared due to a side of the cliff collapsing).
- Lunch at a table d'hôtes: a pleasant moment around a delicious traditional meal in a welcoming environment.
- After lunch, the small group heads back down towards the river to enjoy the fresh crystal-clear waters and hidden pools, then sets off on the footpaths back to the 4x4 that will take them back to civilisation.

The Tourist Office for the West has drawn up a Code of Conduct "6 commandments to abide by for the Mafate Attitude". Read it now and encourage other travellers to respect these rules!

You can explore the lava tunnels in complete safety on Reunion Island. Passionate, state-qualified professionals offer daily trips where you can discover unexpected natural environments. In this unique and secret setting, Julien Dez has come up with a different way of enjoying this experience. Once or twice a month he organises original trips in the late afternoon, where you can explore the site and mingle with local artists. An unusual musical experience in the bowels of Piton de la Fournaise!

Schedule:

- 2pm: Meet in the Vierge au Parasol car park at Coulée 2002, in Le Grand-Brûlé. After this social get-together you head back to the earth's surface.

- Often standing, sometimes bent over or crouching, you move through this wonderful world, to the centre of the earth.
- You can admire the formations created by the cooling lava flow as it slowed down after an eruption (stalactites, stalagmites, large chambers, plugs, solidified lava cascades, seats and light wells etc.).
- Highlight of the trip: in one of the more spacious caves, a trio of artists committed to the idea of «cultural melting pots» and «the spirit of nature» offer an original and unique musical experience in this exceptional place. (Show lasts approximately 45 minutes).
- After this «otherworldly» show, return to the surface (approximately 20 minutes through the tunnel to reach the exit).

LOCATION: CIRQUE OF CILAOIS

Company: **ADVENTURES REUNION** 

When Reunion Island rose from the bottom of the ocean three million years ago, the volcanic island was endowed with countless cliffs, ridges, fissures, needles, and a specific geological feature known as dykes, which are perfect for climbing and mountaineering. Climbers and mountaineers love the ridges of Trois Salazes, Piton Maïdo, Piton de Sucre and Falaise de la Montagne.

Perched on the Piton des Neiges massif, the collapse of its crater and continued erosion gave rise to the three sentinels. They have become one of the most iconic natural curiosities of the island. The reputation of the «Trois Salazes» ridge has spread well beyond our beautiful island and for good reason! Quite simply the route offers the most beautiful panoramic views of the cirques Mafate and Cilaos.

This amazing spectacle goes a long way to make up for the walk to reach the start of the ridge. Although classified as tropical mountaineering terrain this not very technical but sometimes impressive route is generally accessible to most people, with the proviso that they are fit enough.

Schedule for the trip:

- 4am: Meet at the «Col du Taïbit» car park, between Cilaos and Ile à Cordes, in the cirque of Cilaos. Meeting with Olivier, a qualified UIAGM high mountain guide and climbing instructor, and the rest of the participants.
- Technical equipment is handed out for the trip.
- 4:15am: leave the car park for the walk to the starting point.
- After 2 hours and 15 minutes of «hiking» the group reaches the ridge which separates the cirques of Mafate and Cilaos at dawn.
- This is the starting point for the climb which lasts for around 6 hours: the climbers and the guide rope up to cross the thinnest and highest point of the ridge and reach the foot of the rocky outcrop on which the Trois Salazes are perched.
- After climbing the rocky outcrop in two small pitches, the group reaches the foot of the Salazes.
- Ascent of the central Salaze.
- Using a previously installed zip line, the climbers cross to the first Salaze (approximately 15 metres of zip line between the two Salazes). From there, three abseiling sections of increasing length (8m, 25m and 37m) gets them back to the foot of the rocky outcrop.
- The climbers then cross the ridge in the opposite direction to get back to the path to the ridge.
- Allow for approximately 2 hours of walking to get back down to the car park: this walk is an opportunity for climbers to admire their route on the ridge and enjoy the magnificent views of the ridge of Piton des Neiges and Gros Morne. Buzzing with excitement and memories that will be forever etched in their minds.
- Return scheduled around 3:30/4pm.

That little extra:

- Breathtaking panoramic views of the cirque of Cilaos and the cirque of Mafate.
- A unique, rewarding and thrilling experience with sections on high ridges, easy climbs, zip lines and abseiling.

Please note:

- Participants must be fit (and be used to walking). They must not suffer from vertigo.
- No climbing experience is required.
- Minimum age 14 years.
- Please note that to climb Trois Salazes, only a qualified UIAGM mountain guide has the technical expertise to ensure your safety and the legal permits to do so.

This morning is dedicated to the well-being of body and mind:

Schedule for the outing:

- 9am: Meeting on Hermitage Beach where Angélique will welcome visitors.

- After this session allowing you to 100% unplug and relax, a detoxing snack will be offered to participants by the FR8TÉ food truck which will come to meet the group. Thibault and Lucas will offer a delicious "Detox" drink made from 100% local produce. To be enjoyed in front of the lagoon, quietly relaxed on the beach...
- End of the outing.
